GREENVILLE BAPTIST FEMALE COLLEGE. The catalogue of this school for 1869 shows that it stands in the front rank of the literary institution of this State. In the list of professors we notice the well known names of Messrs. C. H. Judson and P. C. Dozier, Rev. Ellison Capers and Dr. J. C. Faber. Situated in one of the most flourishing and easily Hon. George S. Bryan, Presiding.-The Court accessible of our up-country villages, the Greenville Baptist Female College offers rare inducements to the parents and guardians of young ladies.

A CHAMPION YACHT.—The yacht Henrietta, the renowned vessel that crossed the Atlantic, win ning the first thousand dollar race, whiler the owner-ship of James Gordon Bennett, Jr., is bound on a Southern trip, with General Van Allen and party. She will touch at all the prominent points on the coast, and will doubtless pay Charleston a visit. What has become of the yachts whose sails once en livened our harbor? This elegant weather would seem to invite the rivals of last summer to renewed trials of speed.

A SMALL COIN.—A Californian quarter dollar was received in this city yesterday, and on account of the rarity of such things in Charleston, is worth | C. Argoe, creditor, in re Edward Argos, Lewis S. R. describing. It is not a United States coin, but is from a State or private mint. It is about as large round as a three cent piece and very thin, weighing only the sixty-fourth part of an ounce. On one side is stamped the head of Liberty encircled with stars, and on the reverse the denomination of the coin in a wreath of leaves. It is very well executed, but too small for ordinary use.

LUSUS NATURE. - There may be seen at the store of Drs. Raoul & Lynah, corner King and Market streets, a remarkable tusus ratura, a pig with two perfect bodies and sets of legs. The body of one is fused into the side and shoulder of the other, from which the fore feet project. From the point of fasion the developme it is almost Latural until the snout is reached, where the dual formation is again minifested. There are also two tongues, one perfectly developed, the other adherent to the roof of the upper jaw. This curiosity was brought from the plantation of Mr. Baggett, near Green Pond, on the line of the Savannah and Charleston Railroad.

The Condition of King-street.

TO THE EDITOR OF THE NEWS. You will confer a favor on a number of Taxpayers, by giving us a small space in your valuable paper, for the purpose of calling the attention of the City Railroad Company, or the City Fathers, to the condition of King-street, between Vanderhorst and Line streets. We have never seen it in so dreadful a condition, as it is at present, and find it at this time in some places impassable for ladies, while it is a great inconvenience to men, and more particularly to men of business, not being able to cross without they go to a corner, which to many is a great inconvenience, causing them to loose what they would otherwise make to help them to pay the heavy burden of taxation now imposed upon them We believe some one ought to be responsible for the streets being kept in proper consistion for man and beast. The property-holders expect the respon-

83 DO NOT TRIFLE WITH DANGER .- A single spark may kindle a flame that will consume a city, and small ailments neglected, may end in fatal disorders. Bearing this fact in mind, let the first symptoms of debility or nervous prostration be met promptly with in igorating treatment. Foremost among the vegetable tonics of the age stands HOS-TEITER'S STOMACH LITTERS, and whenever the vital powers seem to lauguish, or there is any reason to suspect that the animal functions essential to the sustenation and purification of the body are imperfectly performed, this invaluable invigorant and antiseptic should at once be resorted to. Indigestion always produces weakness. Somestimes it happens, than at any other season,—that the appetite demands more food than the stomach can digest; though not more, perhaps, than is required to keep up the full strength of the frame. The object, under such circumstances, is to increase the digestive capacity of the assimulating organ, so as to make it equal to the duty imposed upon it by the appetite, and capable of supplying the building material of the system as fast as it is required. This object is fully accomplished by the use of the Bitters. They tone and gently stimulate the cellular membrane which secretes the gastric juice, and the result is that the solvent is mingled with the food in sufficient quantity to convert all its nourishing particles into pure and wholesome element. If, on the other hand, there is a deficiency of appetite, without any corresponding deficiency of digestive power, the effect of the tonic is to timulate a desire for food. In nineteen cases out of twenty, beadache, nausea, nervousness, faintingfits, spasms, and, indeed, most of the casual aches and pains to which humanity is subject, proceed primarily from indigestion complicated with bilious ness; and for both these complaints HOSTETIER'S STOMACH BITTERS are recommended as a speedy and certain cure.
